ITV announces back to back coverage of the Derby followed by all Manchester FA Cup Final on 3 June

Both events to be shown live on ITV1

ITV will show live, free to air coverage of the Derby, one of the crown jewels in the racing calendar, followed by the first ever Manchester derby FA Cup Final on Saturday 3 June.

Both events will be shown on ITV1 and simulcast on IT VX with the Derby starting at 1.30pm and the FA Cup Final clash between Manchester City and Manchester United kicking off at 3pm.

ITV1's Derby coverage will begin at 12.30pm, followed by build up to the FA Cup Final from 2.15pm. Racing coverage will continue on ITV4 [also simulcast on ITVM] from that time with all races from Epsom on the day to be shown live.

More details about coverage plans will be announced closer to the events.
