[Archie](#)

The life of Hollywood's greatest leading man, Cary Grant, is to be depicted in a four-part drama, *Archie*, written by award winning screenwriter, Jeff Pope, and starring Jason Isaacs in the leading role.

Born in Bristol, England in 1904, to parents Elsie and Elias, Archie narrates the story of a young Archibald Alexander Leach's troubled childhood and how extreme poverty, his father's adultery and the loss of his older brother, John, tore the family apart and sent his loving mother into a downward spiral of grief and depression.

At 14 he auditioned for the music hall act, the Bob Pender Troupe, a band of acrobats, stilt walkers, clown and comedians after seeing them perform at the Bristol Hippodrome. Lean and athletic, he learned the art of stilt walking, and when the troupe went on tour to the US, teenage Archie was intoxicated by the land of opportunity. Believing he had no family to return to in the UK, he decided

to stay in the US to try to make his way in showbusiness.

With no thoughts of acting, a chance meeting with the comedian George Burns helped him find his first footing on the acting ladder and a contract with a movie studio who felt he needed to change his name, and Cary Grant was born.

To complement the launch of *Archie*, ITVX has also acquired a collection of legendary Cary Grant films which will be available to stream exclusively on the platform from 1st November including *Charade*, *The Grass is Greener*, *Houseboat*, *Indiscreet* and *Holiday*.
