

ITV to launch Coleen Rooney: The Real Wagatha Story as Coleen prepares to enter the jungle

Published Wed 13 Nov 2024

ITV has licensed Disney+ original, *Coleen Rooney: The Real Wagatha Story*, from Disney Entertainment to ITVX and ITV2 as the nation prepares to watch Coleen join the other celebrities in the upcoming series of *I'm A Celebrity... Get Me Out of Here!*

In *Coleen Rooney: The Real Wagatha Story*, Coleen reveals all as the documentary looks at the jaw-dropping libel case that gripped the nation in 2022. The incredible story is told through exclusive access to the woman at the heart of it all, alongside interviews with her family and legal team involved in the resulting trial.

Uncovering one of the biggest tabloid news stories in Britain for the last decade, it reveals how Coleen turned amateur online sleuth to find an explanation for why private stories concerning herself and her family continued to appear in the media. It examines the circumstances that led to her infamous Instagram post that 'broke the internet' all the way to Coleen successfully defending herself in one of the UK's highest-profile High Court defamation cases of recent years. As well as the case itself, it will explore how Coleen has had her life played out in public for the last 20 years. We know her as one of Britain's most famous celebrities and wife of England's record-scoring footballer Wayne Rooney.
