Come Dine With Me to travel to HBO MAX in Mexico for the first time

1 March 2022 - ITV Studios' award-winning global hit format Come Dine With Me continues to go from strength to strength with a commission by HBO MAX in Mexico for the first time, as well as a host of recommissions across the globe.

Greece, Croatia, Chile, Brazil, Latvia, Czech Republic, Ukraine, Turkey, Slovakia and Sweden have all renewed their contract for brand-new seasons, as has Germany's VOX, which has ordered it's 25th series! The widely loved British reality show has now been licensed to 46 territories around the world, with over 17.000 episodes produced globally.

The news follows on from last month's announcement that Channel 4 in the UK has commissioned a brand-new spin off show *Come Dine With Me: The Professionals*, produced by MultiStory Media, part of ITV Studios.

Arjan Pomper, MD Global Entertainment, ITV Studios said: "Come Dine With Me is one of those beloved formats that just keeps growing! Not just with new commissions and recommissions, but also with the brand new spin-off *Come Dine With Me: The Professionals*. We can't wait to show this latest spin-off to the countries as this version has just as much international potential."

Come Dine With Me follows four strangers battling it out for the title of 'ultimate dinner party host.' Each night, one of the four will organise a dinner party and the guests rate the experience. At the end of the week, only one will be crowned the winner and walk away with the cash prize. Are you ready for their attempts to out-wine, out-dine and out-shine each other in this spicy culinary cook-off?

Come Dine With Me is just one of the many formats being showcased to partners at the ITV Studios Formats Festival tomorrow, part of The London Screenings. The news follows on from ITV Studios' announcement in December that it planned to increase the number of formats in three or more countries over five years from 16 to 20.
