Love Island - Dami Hope

Love Island reveals cast of series 8

Name: Dami Hope

Age: 26

From: Dublin

Occupation: Senior Microbiologist

Why Love Island and why now?

This year I was kind of being more open to new things and I think actually that's why I put myself out there to get some new experiences. Love Island is a different experience, I will be talking to different girls, it might not go well with some,

might go well with others, so it's a fun experience.

What do you think you're going to bring to the Villa?

Just myself - Dami Hope! Being me - funny and my personality. I don't know if I will cause trouble, I'll try not to cause trouble but sometimes you don't intentionally cause

trouble - but it happens!

Why do you think you're a catch?

When I'm actually in a relationship, I think it's a star sign thing, I'm an Aries but I'm very passionate - I always used to put that person first. If they had something they wanted to do or something they were passionate about, I'd make sure that even if it's something I'm not talented at I'd get talented at it just so it helps them. I'm really good at being in a team and actually looking after each other.
